

UNIQUELY STICKLEY

MARSHALL UNIT BACKS

Tightback styles utilize individual muslin-covered springs over a sinuous spring foundation, rather than simple foam construction, for lifetime support.

EXCEPTIONAL DURABILITY

Most Stickley frames are made from 5/4 kiln dried maple. Joints are double doweled for maximum durability.

SPECIAL TOUCHES

Skirted pieces are fitted with adjustable glides; which allows the skirt height to be adapted to varying carpet thicknesses, as well as to hardwood floors.

ENGINEERED FOR COMFORT

Stickley uses the finest high-carbon steel springs, interlocked into special sagless corrugated steel webbing to form an exceptionally durable, "spring on spring" foundation. Individual springs are 8-way hand-knotted for even support and maximum comfort.

THE TRADITION CONTINUES

For over 100 years the Stickley shopmark has signified our commitment to the highest levels of craftsmanship. It can be found on every piece of Stickley Fine Upholstery.

UNCOMMON TAILORING DETAILS

Fully mitered, fully lined skirt panels are a hallmark of the finest upholstery tailoring, and are a visual expression of Stickley's dedication to excellence.
